Dear Parent/Carer

Recycling of Old Batteries

Wilmington Academy registered for Kent County Council's 2015 'Power Up Recycling' challenge. This initiative started in September, but the challenge ends at the beginning of January. Schools in Kent have been challenged to collect as many used domestic batteries as possible and the academy will receive a voucher to spend on educational equipment, based on the weight of batteries collected. The more we collect, the greater the value of the voucher. We would be very grateful if you would be able to help us raise valuable funds which will help both the academy and the environment, especially if you are having a pre-Christmas clear out!

The collection box is in the Library and the following batteries can be recycled: AA, AAA, C, D, 9v, mobile phone and button cell batteries.

Yours faithfully

Mr T Reffold
