13. How the school involves other bodies, including Health and Social Care bodies, Local authority support services and voluntary sector organisations, in meeting children and young people's SEN and supporting their families.

According to the Code of Practice 2014, the following must be adhered to:

Children and young people with SEND may need integrated support from education, health and/or social care to help them achieve their ambitions. Working together, these agencies can achieve far more for these children and young people than they can separately, more efficiently and often at a reduced cost. The local offer must set out the range of services available locally to children with SEND and the support that children, young people and families may access outside the local area.

Wilmington Academy will liaise and consult with the above mentioned agencies to create an effective local and Academy offer that jointly commissions all agencies. It will then adhere to the local and Academy offer to ensure that parents and students receive a cohesive, supportive and transparent service. It currently is able to provide services through the Local Delivery Group, Behaviour and Attendance Partnership, Multi Agency

Group and Leigh Academies Trust through the specified referral routes.
