Dear Parents/Carer

Show My Homework

Following a recent change to the information systems used by the academy, there have been technical issues with the Show My Homework service. We are working with the Show My Homework support team to resolve these issues. As part of this work it has become necessary to reset parent login details. As a result you will have lost access to the service. New login details will be sent out as soon as is possible. Students should still be able to access the system.

I apologise for this disruption. If you encounter issues with the system after receiving your new login details please either contact Show My Homework directly or contact me at the academy on the email address quoted below.

Yours faithfully

Michael Gurney
Assistant Principal
(michael.gurney@wilmingtonacademy.org.uk)
