14 December 2018

Dear Parent/Carer

We are holding our first International Baccalaureate Middle Years Programme Interdisciplinary Day on Tuesday 18 December. As part of the day the students in all year groups are exploring the theme of the United Nations Sustainable Development Goals. Every subject is exploring the goals through from their academic perspective, encouraging students to see how interconnected learning is. Students will be developing their problem-solving skills to consider how these issues can be addressed for their generation going forward. This also provides an excellent opportunity for students to directly address the skills in the IB Learner Profile, to further develop their learning. We are sure it is going to be a great day!

If you would like to know more for yourself about the United Nations Sustainable Development Goals, you can find out more through this link:

<https://www.un.org/sustainabledevelopment/sustainable-development-goals/>

I look forward to telling you more about the day in our next newsletter!

*Yours faithfully*

**Pete Devlin**  
Head of College - Apollo
