Dear Parents/Carers

Year 11 Geography Revision

In order to help students develop their subject knowledge for their GCSE Geography, the PIXL app has been purchased by the academy.

This app allows the students to identify areas of strength and weakness within Geography. Students can then easily see this, and should then spend time revising areas that they need to work on.

Students can use the app on normal desktop computers, but can also use the app on Iphones and Androids, as long as they have downloaded the Geography Pixl App in the App store.

To use the app, students need to have a login and password. For the log in, students must use their last name and the first initial of their first name e.g **HAWKINSL**. The password is **GEOG2018**

I have also included a powerpoint presentation, as well as an information sheet so you know how the app works, as well as how to encourage your son/daughter to use it.

This app has been very successful in previous years in aiding students to revise, as well as learning key aspects of the course. I cannot encourage the students more to use the app as a tool for revision and I would be grateful for your support.

if you have any questions please contact me at lucy.hawkins@wilmingtonacademy.org.uk

May I also take this opportunity to wish you a Merry Christmas.

Yours faithfully

Miss L Hawkins
Teacher of Geography
