

Knowledge Organiser: 3. Local provision

Research at least five sports below and answer the following questions:

1. What club(s) offer the sport?
2. Where is the club?
3. How will you get there?
4. Is there any sports you could attend a club for that are not on the list? If so which sport?

Gymnastics	Athletics	Clay Pigeon shooting
Dance	Netball	Water sports
Trampolining	Hockey	Judo
Basketball	Bowling	Diving
Tennis	Netball	Football

Volunteer - Someone who gives up their free time without getting paid in order to help the community.

Coach - Someone who is in charge of/ takes the training sessions and runs the team.

Official - Someone who is in charge of the play/ match/ event/ bout. They are the referee, umpire, judge etc.

Player - Someone who is actively taking part and playing in the match/ event/ bout.

Barriers to participation

Cost - The cost of equipment can prevent an individual from participating in a sport or activity. Many clubs try to keep their memberships prices low.

Disability - The access for disabled athletes is vastly improving. All participants should be able to access the facilities in which the sport/ club is being run. Some sports will modify the rules so that disabled athletes can still access the sport.

Age - Many sports will be played in age groups so that it is safe for everyone to participate. As people get older they may play in veteran leagues so that they can still access the sport.

Gender - Most sports clubs will have male and female teams within their club. With some sports the males and females can play together. There still needs to be more provision for some genders in some sports.

Time - Time is a big barrier to participation. Both the participants and coaches need the time to be able to attend the sessions/matches. Sports clubs are usually in the evenings so that both can attend.

Transport/ location - Most clubs in Dartford are within walking distance and so therefore you could get there yourself

Statement of Inquiry / Assessment Question: Interaction in a range of situations allows us to make balanced choices

What sports club are you going to attend? Where does this club run? How are you going to get there?
